CCM
COMPUTER CONTROLLED MACHINES

>
WMKS
Turntable

The WMKS is free-standing and comes with a grind wheel dresser, liquid-filled cooling reservoir, grind motor tilt assy, lubrication oil pump, safety interlocks, and operating controls. Features:

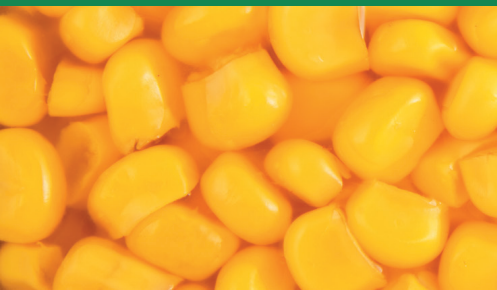

- Sharpens all 6 knives at the same time
- Correct knife contour allows ears to “slip” through the cutter head with minimal resistance.
- Simple to operate, and easy to maintain.

MORE FEATURES:

- **Precision** - exact knife radius and angle are locked in creating precision grind to achieve better quality of cut.
- **Advantage** - wet grinding of knife tips reduces the knife edge temperature, producing a better edge and increases knife life.
- **Functionality** - the grind angle can be set for 8, 10 or 12 degrees
- **Power requirement** - 110V / 220V, 1 PH, 50 HZ / 60HZ
